

THE

HUMANITIES MATTER!

UNDERSTANDING OUR WORLD

BRINGING CLARITY TO THE FUTURE

USING OUR PAST TO BRIDGE THE FUTURE...

HISTORY

POLITICAL SCIENCE

ENGLISH

PSYCHOLOGY

ECONOMICS

THE ARTS AND HUMANITIES DEFINE WHO WE ARE AS PEOPLE.

THAT IS THEIR POWER...

TO REMIND US OF
WHAT WE EACH HAVE TO OFFER,
AND
WHAT WE ALL HAVE IN COMMON.

TO HELP US UNDERSTAND OUR
HISTORY
AND IMAGINE OUR FUTURE .

TO GIVE US HOPE
IN THE MOMENTS OF STRUGGLE
AND
TO BRING US TOGETHER
WHEN NOTHING ELSE WILL.

~ MICHELLE OBAMA

MICHELLE OBAMA

DOES HUMANITIES HAVE A FUTURE?

JACINDA ARDERN

Prime Minister of New Zealand
Bachelor of Communication Studies
in
Public Relations and Political Science
At
Waikato Management School

AT A TIME WHERE
HUMAN SURVIVAL IS AT STAKE,
HUMANITIES IS VERY MUCH
A PART OF THE SOLUTION TO THE
PROBLEMS PEOPLE FACE TODAY,
AS IS SCIENCE AND TECHNOLOGY.

THE WORLD NEEDS

STRONG LEADERS

MORE THAN EVER BEFORE.

LEADERS WHO ARE

HUMANE,
CREATIVE AND ANALYTICAL

THESE ARE SKILLS ACQUIRED FROM
HUMANITIES
AND SOCIAL SCIENCE DEGREES.

HUMANITIES ENABLE STUDENTS
TO SEE THE BROAD PICTURE
AND BE A PART OF THE CHANGE
THEY WISH TO SEE IN THE WORLD.

WHAT DO THEY HAVE IN COMMON?

CEO STARBUCKS – HOWARD SCHULTZ,

HBO CEO – RICHARD PLEPLER,

YOU TUBE CEO – SUSAN WOJCICKI

– A HUMANITIES DEGREE.

"I think if you have a good background in what it is to be human, an understanding of life, culture, and society, it gives you a good perspective on starting a business, instead of an education purely in business.

Stewart Butterfield

Co-founder, Flickr and Slack

BA in philosophy from University of Victoria and master's in philosophy from the University of Cambridge

WITH HUMANITIES

THERE IS A WORLD TO CONQUER AND A WORLD TO GAIN.

HUMANITIES CAN PROVIDE A VAST POOL OF UNTAPPED LEADERSHIP

FOR LARGE CORPORATIONS AS THEY HAVE AN UNDERSTANDING

OF THE COMPLEXITIES OF HUMAN NATURE NECESSARY TO

COMPREHEND CONSUMER BEHAVIOUR, USERS' NEEDS

AND INTERPERSONAL RELATIONSHIPS IN THE BUSINESS WORLD.

THE HUMANITIES

PROVIDE A VERSATILE WORKFORCE WHOSE MEMBERS CAN ADAPT MUCH QUICKER TO THE MARKET PLACE'S CHANGING NEEDS.

BUSINESSES ARE EMPHASIZING BIG DATA AND ANALYSIS... THAT MEANS RESPONDING TO THE NUANCES OF INDIVIDUAL AND COMMUNITY BEHAVIOUR TO PROVIDE THE COMPETITIVE ADVANTAGE.

WHO IS BEST EQUIPPED FOR THIS ?

DEFINITELY THE HUMANITIES,

AS THEY PROVIDE AN ECLECTIC INSIGHT INTO THIS, GIVING THEM AN EDGE OVER THE OTHER STREAMS. DATA WITHOUT CONTEXT IS MEANINGLESS.

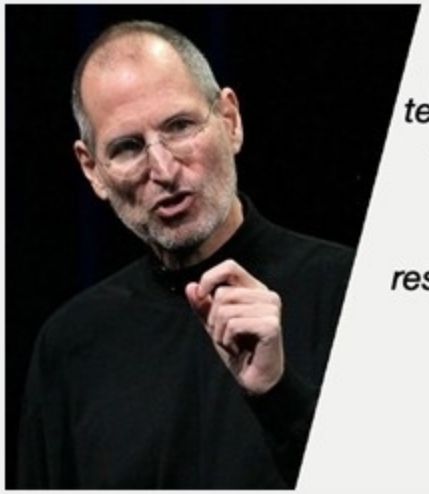
"Literature is unbelievably helpful, because no matter what business you are in, you are dealing with interpersonal relationships. It gives you an appreciation of what makes people tick.

Michael Eisner
Former Disney chairman and CEO
BA in English literature and theatre at Denison University

"The purpose of liberal arts traditionalists like myself... is something like developing the liberating potential of as much knowledge, wisdom, and intellectual skill (reading, writing, calculation, etc.) as possible.

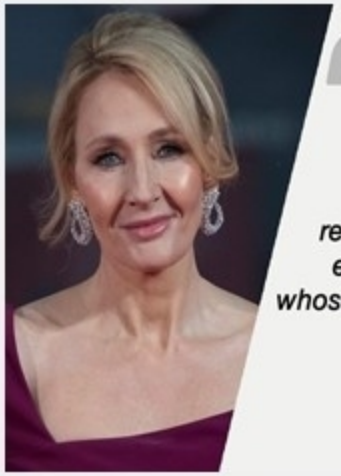
Larry Sanger
Wikipedia founder
BA in philosophy from Reed College and PhD in philosophy from Ohio State University

© BBC/Getty Images



"It is in Apple's DNA that technology alone is not enough – it's technology married with liberal arts, married with the humanities, that yields us the results that make our heart sing.

Steve Jobs
Apple co-founder
Dropped out of university but audited calligraphy classes after leaving



"Imagination is not only the uniquely human capacity to envision that which is not, and therefore the fount of all invention and innovation. In its arguably most transformative and revelatory capacity, it is the power that enables us to empathise with humans whose experiences we have never shared.

JK Rowling
Author
French and Classics at the University of Exeter

IT IS ESSENTIAL TO HAVE THE ABILITY TO WORK AS A TEAM, POSSESS COMMUNICATION SKILLS AND POSITIVE ATTITUDE, WITH AWARENESS OF CULTURES.

THESE ARE REQUIREMENTS FOR A SUCCESSFUL CAREER IN COMMERCE AND INDUSTRY IN A WORLD THAT HAS GLOBALISED. KNOWLEDGE GAINED FROM THE HUMANITIES CAN DEFINITELY HELP IN THE FIELD OF COMMERCE AND INDUSTRY.

JOBS THAT EXIST

IT STREAM (SKILL EDUCATION)

- INFORMATION TECHNOLOGY
- WEB APPLICATIONS

Other Subjects

- ENTREPRENEURSHIP
- ENGLISH
- PHYSICAL EDUCATION

INFORMATION TECHNOLOGY

- The present course curriculum been designed as such to make students capable of independently working on a desktop and to be able to develop applications to handle computations of small scale and record keeping.
- This course will enable students to hone skills to develop desktop based applications etc.
- With extensive demand for designers the course aims at inculcating not only programming skills but also the understanding of graphics.
- Graphics in itself is a wide and very interesting area which helps in shaping the creativity of a student.

Skills learnt

- Be able to work efficiently on computers.
- Understand basic functional and computational units.
- Understand networking and internet concepts.
- Recognize various internet devices and threats to cyber security.
- Skills to work efficiently with basic office tools like word, spreadsheets, presentation.
- Understand basics of databases and SQL to handle databases.
- Develop programming skills in Java

Career Opportunities

- Customer Service Associate
- Customer Service Representative
- Customer Care Executive
- Customer Service Advisor
- Helpdesk Coordinator
- Customer Support Representative
- IT Support Specialist
- Documentation Assistant
- Programming Assistant

WEB APPLICATIONS

- Today the world is connected through the web socially and economically.
- Web development has become one of the best-paid career choices in the modern world.
- A web developer is an individual who is proficient is creating web sites.
- Web development is the process of developing websites. The process includes coding or programming that empowers websites' functionality

Main objectives of the course

- To acquaint the students with the basics of networking.
- To develop an understanding of Web Architecture.
- To enable the students to enhance their knowledge of client-server Architecture.
- To prepare the students to develop static and dynamic websites using HTML, CSS and Javascript.
- To familiarize the students with the web programming languages and photo editing software.
- To make the students capable of publishing a website independently.

Skills learnt

- Graphics Designing
- Website Designing
- Website Development
- Web Applications

Career Opportunities

- Web Applications Developer
- Front End Web Developer
- Back-End Web Developer
- Design and Layout Analyst
- Web Marketing Analyst
- Senior Web Analyst
- Brand Development
- E-Commerce Design and Development
- Product Designer
- Design Studio
- IT companies
- UX Designer (User Experience Designer)
- UI Designer (User Interface Designer)

FURTHER STUDIES

- BA (programming) and other programming oriented applied undergraduate courses of different universities.
- Bachelor of Computer Applications (BCA)
- Graduation in Multimedia and Website Designing
- Diploma in Web Designing
- PG Diploma in Internet & Web Designing.
- Graduation and Diploma courses in E-Commerce and Web Design.
- BSc IT

FURTHER STUDIES…continued

- B.A LLB or BBA LLB
- B.A
- BBA
- HOTEL MANAGEMENT
- JOURNALISM
- MASS COMMUNICATION
- TOURISM

Degrees and Courses (pursued by students from the IT stream)

BCA
MCA
BBA
MBA
BSC IT
BSc. (HHA)
BA Political Science, LLB
BA (VOC) Tourism management
B.A. (H) English Literature
M.A. (H) English Literature
Bachelor's in Media and Communication
BBA.LL.B
Hotel Management
Sports science
BJMC
PGDM
M.A Psychology
BSc Computer Science

Colleges and Institutes (attended by students from the IT stream)

Campus Law Centre
School of Open Learning (D. U.)
Chander Prabhu Jain College of Higher Studies and School of Law. Course
St. Paul's Cathedral Mission College (Calcutta University)
New Delhi Insitiute of management
Vincent Pol University, Poland
Narsee Monjee
JIMS, Vasant Kunj
I.P university
Banarsidas Chandiwala Institute of Information Technology, Kalkaji
IITM, Janakpuri
Jamia hamdard
Hope Institute of Hospitality Management
IIHM, Delhi
Trinity Institute of Professional Studies
Symbiosis Centre for Media and Communication
Manav Rachana Institute

What is Engineering Graphics

- Every object or component cannot be produced straight away in factories and manufacturing units.
- It has to pass through designing stage before it is manufactured in factories.
- EG helps us in designing an object when none exists.
- After designing the object, a prototype is manufactured that has the same features as the real object is supposed to.
- After the prototype proves successful, mass production happens.

Where is it helpful ?

- EG is a compulsory subject in degree courses like
  - B.Tech,
  - B. Arch,
  - B Planning
  - B. Design
- Therefore the knowledge of the subject of EG at the school level will prove very helpful in studying for these courses in college.

Top Career choices

- Engineering
- Architecture
- City and Urban Planning
- Fashion Designing
- Interior Designing
- Infrastructure and industrial designing

- These professional careers come with high salaries, both in the Govt as well as the Private sector.

Some premier colleges of repute

- IITs - (23)
- SPAs - (3 – Delhi, Bhopal and Vijayawada)
- NITs - (31)
- NIDs – (3 – Ahmedabad, Gandhinagar and Bangalore)
- NIFTs – (17)

- Apart from these there are many private colleges

Some important entrance exams

- JEE Main 2
- NATA – National Aptitude Test in Architecture)
- UCEED – Undergraduate Common Entrance Examination for Design

Advantages of studying EG at the school level

- Develops visualization skills
- Help students crack the JEE Main 2 paper
- EG is a highly scoring subject
- Boost your overall percentage in Board exams.
- No theory to be crammed, purely practical based

- Thank you
