Dear Parents

Hope your ward successfully attempted first exam yesterday. To further make things easier for your ward we suggest few things that you need to adhere to for a hassle free exam.

1. Network issues have to be taken care by you only. In case your ward is not able to login then he/she need to switch off and then switch on the internet connection after that click on the link and join the class. Same to be done in case of mobile data.
2. Student's who face internet issues can take the screenshot of the question paper shared by the teacher. Incase of internet issues they can attempt the question paper.
3. Many of you have sent PDF of answersheet to teachers on their personal mobile inbox. We request you to convert answersheet into PDF and send to teachers on their given mail ID. Divide the sheets into two parts(paging to be done compulsorily) and then upload. File will not be bulky and will be easier to upload. Once you send via mail please do not send on teacher's personal inbox. Doubling of answersheet might create issues.
4. During exam days teachers are on invigilation duty in other classes allotted to them after their own class exam gets over.

5. Kindly retain the answersheets of your ward properly in the folder, we might require it in the later stage or after reopening of school.
6. Ensure that the PDF of your ward's answersheets that he/she is uploading on the teacher's email id has attachement of answeersheets (BLURRED,NO CLARITY OF ANSWERSHEETS WILL NOT BE ACCEPTED OR EVALUATED).
Kindly refrain from calling teachers till 1 pm.

You can send WhatsApp message on their personal inbox. They will definitely answer you after they wind up the exam. Incase of emergency send a message like this with your concern. 👇

Very Urgent
Kindly contact
(Message content)
For your convenience we will share Question paper on class Whatsapp group as well as Zoom platform . Logging on to Zoom is mandatory as attendance will be marked from there only. Zoom video should be on always. We will not ask students every now and then to switch on video. If they do not adhere to video on instructions then their answersheets will not be evaluated.
