

My dear children,

Warm greetings!

We are extremely proud of your power to stand rock solid during the past 6 months of lock down. May the God bless each one of you.

Inside your homes, not being able to play outdoors, or meet your friends, or travel, or enjoy in theatres/schools/restaurants/markets etc. must have been extremely challenging. But all of you have proved your grit and determination to withstand adversities and excel in life. Kudos!

We have completed almost half the session 2020-21 and are soon holding the 1st term exams. With exams we don't mean to evaluate what you don't know, but to evaluate that how much have we been able to reach out to you and if at all, are there some topics not clear to you.

My submission to you is to take the exams with sincerity and without getting stressed up. Prepare well, get your doubts clarified and don't fret over what you don't know. Let the exams be simply an exercise to introspect upon the topics you and we need to work upon.

However, in case you wish not to write exams or feel that preparing for these will add on stress, you may even miss them all or few. Choice is absolutely yours.

Stay healthy, happy and blessed. Love you all.

Principal
