6 th October 2023	Pragya Nopany	<p>Thinking Spaces: An interactive program for students of grades 4 and 5 at BVN. The first objective of the program was to nurture the observational and questioning skills. A short intriguing video was screened and students were asked to speak out what came to their mind. It was an eye opener to hear the questions raised for a full 30 minutes, it showed the minute observations of the young students and their fine thought process.</p> <p>The second objective was to find out if the students could think what can be changed in a given situation and vary at least one factor. They were given used plastic bottles and asked to drop them in as many different</p>	70 students and 3 teachers

		ways as possible. The students showed impressive creativity by making full use of their imagination and experimenting with the bottles.	
9 th October 2023	Pragya Nopany	Physics Stage Show: Jointly organised by Jaipur National University (JNU) and IAPT RC-6, the interactive stage show was a privilege which allowed us to share the excitement of physics with physics students at senior school in the august presence of physics maestros Prof H C Verma and Prof P C Deshmukh. A selection of activities encompassing electricity, mechanics, and optics enthralled the students who actively contributed to the show's success by presenting innovative ideas and thoughtful answers.	350 students and 15 teachers from 15 schools of Jaipur
10 th October 2023	Pragya Nopany	Implementing NEP 2020 in Physics Classrooms: The In a talk delivered at the 37th Annual convention of IAPT, Mrs Pragya Nopany presented ideas on how to implement the NEP vision by creating thinking, practicing, and empathetic, socially relevant physics classrooms in schools. The ideas were supported by intriguing and interactive examples. She also underscored the need for higher education institutions, seeking students with certain intellectual capabilities, to invest in school education.	40 IAPT members
13 th October 2023	Pragya Nopany	Mesmerizing Mechanics: An interschool program for students of grade XI who came from all corners of Delhi-NCR and made it a great event. Picture a class where discovery is the prize, and curiosity the rule. The students were challenged to carry out a fun task. Each miss compelled them to dig deeper and discover the hidden truth. Each hit gave them the thrill of making the right connection with their physics concepts. The accompanying senior teachers gained insights as to how to make a demonstration a real head-turner - like the surprise guest at a party who gets everyone talking! And also how to keep the learning adventure sizzling.	120 students and 15 PGTs from 14 schools

19 th October 2023	Pragya Nopany	Workshop on Mechanics & Current Electricity: In a transformative teacher training program, seasoned physics educators gathered to embrace pedagogical approaches that shift the emphasis from exam-centric instruction to competency-based education. The teachers delved into captivating physics concepts through a series of hands-on activities, engaging demonstrations, and thought-provoking discussions. Through these activities, educators not only bolstered their own grasp of fundamental physics principles but also discovered innovative approaches to kindle their students' curiosity, convey subject knowledge, nurture critical thinking, and instill a genuine love for physics.	25 PGTs from different schools of Jaipur
