

## **NEW GREEN FIELD SCHOOL SAKET**

### **Reg. : Fee structure for 2018-19 - clarification**

Dear Parent,

Certain parents are under the impression that this school started levying Annual Charges for the first time for the year 2018-19 and that Development Charges which were being collected quarterly are now being collected annually. To clarify the doubts in the minds of parents, the following clarifications be noted :

- i) No fee or charges were increased for the year 2017-18 and that the fee structure remained the same as it was in the year 2016-17.
- ii) For the year 2018-19, in order to meet the cost of inflation and annual increments of the members of the staff, fee and other charges were increased but the increase was not more than 10% of the charges levied for the year 2016-17.
- iii) Annual charges are not a new levy. In fact charges on account of Maintenance Charges and Activity Charges have been clubbed under the head "Annual Charges". This has been done to bring the heads of levy in accordance with the form devised by the Directorate of Education for preparation of budget and for no other reason.
- iv) Although Development Fund and Annual Charges are depicted in the fee schedule as Annual levy, yet the parents are at liberty to pay the same on quarterly basis.
