

Dear Parents,

As you are aware all the schools are closed during lockdown due to spread of Coronavirus (Covid 19) and the schools shall have summer holidays from 20nd May 2020 and may open only after 30th June 2020. To overcome the loss of studies during lockdown, your school has been imparting education online to the students. Though our teachers are working very hard even during lockdown yet some problems in online teaching have been brought to our notice. We at our end are trying to overcome these problems and are sure that online teaching shall definitely help the students.

To keep the students busy and connected with their text books, we have prepared homework assignments for each class to help the students to enrich their knowledge, revise the syllabus and writing skills. It is suggested that the students should do their homework neatly in thin notebooks separately for each subject. During holidays students be advised to follow the self drawn timetable for systematic study. During free time they should engage themselves in hobbies and general study. The children should be encouraged to extend help to their parents in household chores particularly during the lockdown period which ultimately builds up the self confidence of the child.

During holidays the school office shall remain open between 9 a.m. to 1 p.m. everyday except on Saturday and Gazetted holidays with reduced staff strength due to lockdown.

Wishing you and your children the best of health and happiness.

Yours sincerely,
Principal
